GET CONNECTED

WITH FLOORING FOR EVERY SPACE IN YOUR SCHOOL

Choosing the right flooring for your facility shouldn’t be a challenge, so we’re making it easy to find just what you need. Our integrated system of modular carpet tile, LVT and nora® rubber offers the best of hard and soft surfaces working together as a system for every space from classrooms to corridors, gymnasiums to offices and everything in between. We’ve even noted which products are QuickShip to easily identify the best options for quick turnaround projects.

YOUR Design Partner

We make finding design solutions easier with Interface Design Studio—expert designers who know Interface products inside and out. And it's complimentary.

From concept to completion, they can work closely with you to create distinct designs that meet your vision and budget, no matter how large or small the project. Plus, the to-scale floor plan layouts can project overall waste and act as an installation guide for the flooring contractor. Just contact your Interface rep to get started.

A SOFTER HARD SURFACE

Flooring that's so durable it can last for decades—and still look good—is a must-have for any K-12 environment. nora® rubber does just that and more.

- Dimensionally stable and installs over most subfloors
- Non-porous, highly dense surface of nora rubber creates a long-lasting floor that cleans easily with little more than water
- Never requires coating and is fully restorable
- Impervious to stains and resistant to moisture
- nora technical services available for consulting before, during and after installation
- Offers impact sound reduction of up to ΔIIC 21
- Contributes to healthy indoor air quality
- Certified carbon neutral through our Carbon Neutral Floors™ program

HARD ON TRAFFIC

SOFT ON NOISE

Interface Sound Choice™ LVT offers high-performance hard flooring in patterns and colors that range from "principal's office" professional to "Kindergarten" fun.

- Works as a system with our carpet tiles—no transition strips needed
- Available in 25 cm x 1 m planks and 50 cm x 50 cm squares
- Ceramor™ coating provides a durable finish that resists scuffs and scratches
- Offers greater noise reduction for improved learning
- Optimal dimensional stability and flexibility thanks to an incorporated fiberglass layer
- Easy to install and maintain
- 39% recycled content
- Recyclable through our ReEntry™ program
- Certified carbon neutral through our Carbon Neutral Floors™ program

A00807 Bluegrass  A00808 Mulberry

NATIVE FABRIC
Product Number
A008
Product Construction
High Performance Luxury Vinyl Tile
Class / ASTM F1700
Class III Printed Vinyl Plank
Wear Layer Thickness
22 mil
Total Thickness
4.5 mm
Backing Class
Commercial Grade
Finish
Ceramor™ Coating
Nominal Dimensions
50 cm x 50 cm (19.69 in x 19.69 in)
Indoor Air Quality
GREENGUARD Gold, FloorScore® Certified
CDPH 01350 Compliant
Installation Methods
Ashlar, Brick, Monolithic, Non Directional, Quarter-Turn
Full product specification on interface.com

Product Step Aside | Color 106317 Alba | Installed Monolithic
Product Step II Up | Colors 106330 Coralite and 106332 Citrine | Installed Ashlar
THE SOFTER SIDE
OF HIGH PERFORMANCE

Our modular carpet is everything you love about soft flooring with the flexibility of tile. We’ve been perfecting it for more than 40 years.

- Extensive selection of patterns, colors and sizes that work as a system with our LVT and rubber
- Dense construction with premium nylon fibers holds up to heavy impact and resists snags
- Structured, dimensionally stable backing system keeps tiles in place
- Ease of installation and replacement with our glue free TacTile installation system.
- Intersept™, our proprietary preservative, is permanently incorporated into the backing to protect carpet tiles against mold growth and odor—even at the seams.
- Interface’s i2™ styles have mergeable dye lots that reduce the need for attic stock, and many install non directional, reducing installation waste to just 1.5%
- Certified carbon neutral through our Carbon Neutral Floors™ program
- Recyclable through our ReEntry™ program
Product Ice Breaker | Colors 106193 Lazuli, 105772 Bluestone and 105778 Magma | Installed Non Directional

Product norament® grano stair treads | Color 5329 Bergamot
ALL THE EXTRAS
FROM ENTRYWAYS TO STAIRS AND MORE

When we say we have an integrated system of products for EVERY space, we mean it. That includes walk-off products for entryways, nora® stairwell solutions, and a range of accessories for norament® and noraplan® floor coverings to complete the perfect floor.

**Interface Walk-Off Carpet**
- Reduce maintenance and add years to the life of your floors
- Stiff fibers in our Step Repeat™ Collection styles grab dirt and debris before it’s tracked inside
- Interiors stay fresher, creating a better indoor environment

**nora® Stairwell Solutions**
- Fast installation with decades-long endurance of heavy traffic
- norament® stairtreads offer a pre-shaped stair nosing, riser and tread all-in-one piece
- nora® stair nosings with a slide-in lip for installation on all types of staircases—for use on noraplan /norament floor coverings with a smooth/hammered surface
- nora® visually impaired strips offered in smooth or textured surface, available in different colors

**nora® Accessories**
- nora® wall base to add that final touch to your installation
- Joint sealing when needed with nora® heat weld or nora® cold weld
- High-quality installation materials tailored to nora rubber for safe installation

SR899
Modular, 50cm x 50cm
Style: 13886
Yarn Manufacturer Aquafil
Yarn System 100% Recycled Content Nylon
Color System 100% Solution Dyed
Construction Tufted Textured Loop
Preservative Protection Intersept®
Soil/Stain Protection Protekt™
Pile Thickness 0.143 in., 3.6 mm
Pile Density 6,545
Total Recycled Content Up to 80%
Indoor Air Quality Green Label Plus #GLP0820, CDPH 01350
Installation Methods Non Directional
Full product specification on interface.com

nora® Flooring Accessories

**nora® heat weld**
Developed for use with noraplan® flooring, nora® heat welding is recommended when the nora® flooring has been installed in rooms with continual and intensive wet cleaning, in areas with stringent requirements for hygiene or other special requirements, such as operating rooms and laboratories. Due to its resilient structure, welding is required for noraplan acoustic.

**nora® cold weld**
noraplan and norament® floor coverings do not need to be sealed because they do not contain any volatile plasticizers. Thus, there is no shrinkage after installation. In some types of installations, though, it is recommended to seal the joints (seams) in areas with intensive and continual wet cleaning, in labs or areas with specific hygienic requirements for a dense, homogeneous surface.

**nora® wall base**
Delivering a consistent height and toe dimension you can depend on, nora® wall base exudes a professional appearance that adds that final touch to your installation. If the color you need is not already available, nora wall base has the ability to be custom color matched to any floor, wall, fabric or paint swatch.

**TacTiles**
Just peel, pull and stick for a hassle-free, durable carpet tile installation. No mess, no drying time and little, if any, future floor prep. And TacTiles connectors can be recycled with Interface carpet tiles.
nora® Adhesives

**nora® dryfix 750**

nora® dryfix 750 adhesive tape provides you with a safe, healthy, cost- and time-effective alternative to conventional flooring adhesives. There is no mixing or adhesive clean-up necessary, and it allows for immediate traffic upon completion of installation.

**nora® stepfix**

Specifically developed for norament® stair treads, nora® stepfix adhesive tape makes installing stair treads quick, clean and easily manageable – making them the optimum solution. With nora stepfix, you can easily dry-fit the tread right on the covered adhesive tape, and stairs can be walked on immediately following installation. On stairs with round nosings, use nora® metal repair stair angle and/or nora® epoxy stair filler to fill the void.

**nora® AC 100**

nora® AC 100 is an easy-to-use, wet set, water based acrylic adhesive that has been specifically formulated for the installation of specific nora rubber floor coverings (2 mm — 4 mm) on absorptive substrates.

**Adhesive: XL Brands 2000 Plus**

(2500 Plus in Canada) for LVT and carpet tile

This releasable, water-based, spread adhesive is available for our carpet tile and LVT and contains our proprietary antimicrobial preservative, Intersept™, for enhanced protection against mold and mildew.
Creating a Healthier Planet—Together

Our goal is to make products with the lowest carbon footprint possible. Through our innovations working with recycled content and bio-based materials, we’re making carpet tiles that store carbon, preventing its release into the atmosphere. And the flooring products that we sell, including carpet tile, LVT and nora® rubber, are carbon neutral across their full product life cycle through our third party verified Carbon Neutral Floors™ program. When you purchase our flooring, you’re helping create a healthier planet with reduced carbon in our atmosphere.

And with your purchase, we’ll give you a Carbon Neutral Floor Certificate acknowledging the amount of carbon offsets you’ve helped retire from the atmosphere.

Closing the Loop with ReEntry™
Each year we work with collection partners across the North America to divert millions of pounds of used (or post-consumer) carpet from landfills, feeding compatible materials through our Cool Blue™ system to create new flooring over and over again. Most valuable to us is our own LVT and vinyl backed carpet tile. Help us keep closing the loop by including ReEntry as part of your project’s waste diversion strategy.
