nora® sanitary base

nora® sanitary base is easy to clean and suitable for areas with stringent hygienic requirements.

- Good for very heavy traffic
- Increased safety thanks to high fire-retardant properties
- No coatings needed

<th>Product</th>
<th>nora® sanitary base, Article 817 - S 3019 D</th>
</tr>
</thead>
<tbody>
<tr>
<td>Description</td>
<td>nora® vulcanized rubber compound 959 with natural fillers and environmentally compatible color pigments that are free of toxic heavy metals like lead, cadmium or mercury.</td>
</tr>
</tbody>
</table>
| Characteristics | Material Dimensions:  
  - Length: 32.81 feet (10 m)  
  - Depth: 1.97 inches (50 mm)  
  - Height: 5.98 inches (152 mm)  
  - Thickness: 0.13 inches (3.2 mm)  
  Dimensional Stability: Meets requirements  
  Composition: Homogeneous rubber compound  
  Colors: 25 standard colors  
  Surface: smooth |

**Technical Data**

| ASTM F1861 | Type TP, rubber, thermoplastic |
| Flammability | ASTM E648; NFPA 253; NBSIR 75 950, 1.0  
Class 1, ≥ 0.45 watts/sq. cm is required |
| Smoke Density | ASTM E662; NFPA 256; NBS, 147 (flaming) and 249 (non-flaming)  
< 450 is required |
| Bacteria Resistance | ASTM E2180 and ASTM G21, resistant to bacteria, fungi, and micro-organism activity |
| CAN/ULC-S102.2 | Surface Burning, FSC1 of 70 and SD of 470 |

Installation

| Site Conditions            | The installation area must be fully enclosed, weather tight, and climate controlled between 63°F and 75°F and 40% to 60% ambient relative humidity (RH) for at least 48 hours prior, during and 72 hours after installation. |
| Adhesive                  | Use nora® profix adhesive for all substrates                                                                                                   |
| Unique Characteristics    | Replaces the need for flash coving flooring  
All vertical seams must be cold welded  
If welding is required nora® cold weld must be used |

For complete installation instructions, refer to the nora® Installation Guide.

Care and Cleaning

Refer to the nora® Maintenance Guides.

Wheel Types

No metal or hard plastic wheels, the shape of the contact surface of wheels must be flat with round edges. The shore hardness must be type A ≤ 90.

Storage

nora® flooring can be stored within a temperature range of -5°F (-21°C) to 120°F (49°C) under the following conditions: Pallets shall remain intact, undamaged, not be stacked, be in a permanently dry environment, and with no direct sunlight. However, all adhesives and cold weld must remain at room temperature without freezing.

Warranty

Limited 5 year warranty. See nora® Limited Warranty.
