FREQUENTLY ASKED QUESTIONS

Q: What are the actual lengths of norament® stairtreads?
A: Length: 50.59 inches (1285 mm), 63.54 inches (1614 mm) and 78.89 inches (2004 mm)
   Depth: 19.88 inches (505 mm), Nosing Height: 1.77 inches (45 mm)

Q: What styles are available with norament stairtreads?
A: norament 920, grano, hammered, round, and satura.

Q: Can norament round stairtreads be paired with both norament® 926 and norament® 825 round tiles?
A: norament round stairtreads are the perfect complement to norament 926 round tiles. You will see a slight color variation if you pair norament round stairtreads with norament 825 round tiles.

Q: What products are best suited for landings?
A: We recommend using 3.5 mm products for landing applications. For alternative product selections contact the nora® Technical Department.

Q: Are norament stairtreads available in the nora® Quick Ship program?
A: Yes, 16 colors are available. For detailed information found in the nora product catalog, please visit www.nora.com/us.

Q: How are norament stairtreads fitted?
A: Stair treads are measured or scribed then cut using a utility knife.

Q: What adhesive is required?
A: Only nora® stepfix can be used for adhering norament stairtreads with the exception of the top nosing. Please visit www.nora.com/us for detailed installation instructions.

Q: How are norament stairtreads grooved for Visually Impaired [VI] inserts?
A: All stair treads are grooved to order, in house, at our Salem, New Hampshire location utilizing the skilled hands of the nora® Samples Department.

Q: When is nora® epoxy stair filler used?
A: When any VI inserts are used, and when the existing step nosing is a larger radius than the ¼“ outside stair tread radius.

Q: What type of stair designs fit norament stairtreads?
A: norament stairtreads are designed to be installed on straight and angled risers.

Q: What is the maintenance protocol?
A: Dust mop or vacuum the stair treads to remove dust and dirt then damp mop the stair treads using a diluted daily maintenance product and allow to dry.

Q: What is the flame and smoke ratings for norament stairtreads?
A: norament 920 stairtreads achieve a Class ‘A’ rating in accordance with ASTM E84.
   norament stairtreads meet ASTM E648 and are Class 1 in accordance with ASTM E662.
