NOTE: When installing norament® stair treads with nora® visually impaired strips, nora® epoxy stair filler must be used under the nosing of the stair tread during installation.

ecoglo® - photoluminescent contrast strip
Combined with norament® stair treads, Ecoglo’s E Series photoluminescent step edge contrast strips meet NFPA 101: Life Safety Code®, IBC & IFC 2012 compliant for use in egress stairwells for most buildings over 75 feet. Easily installed in new or existing buildings, the E Series is designed to reduce falls and enhance egress speed in emergency situations while meeting compliance with all mandated codes.

- High visibility in dark or light conditions reducing possibility of slips and falls
- Meets ADA requirements regarding step edge visual contrast
- Hard wearing and high durability indoors and outdoors
- Easy cleaning
- Ten year limited wear warranty
- No radioactivity or toxicity
- Does not burn, meets standard test methods ASTM E162-02 and ASTM D635-03
- Designed to meet new ICC regulations for new buildings over 7 storeys high
- Luminous Egress Path Marking Systems compliant, UL 1994

- 3 Standard Colors
- Piece Width: ~2” (51 mm)
