# Versatile style and a durable reputation

norament® round and hammered are sure to last regardless of tomorrow's trends. From corridors and stairwells to the high-traffic public spaces of museums, sky bridges or airports, they offer high performance in two restrained designs – one retro, one contemporary – and are united by a crisp, solid color palette worthy of a classic.

As the longest running design in the nora portfolio, norament round has brought timeless structure to interior floors for decades. It features a disciplined matrix of circular pastilles that contrasts the more randomly forged surface of norament hammered.

Both are available in 14 colors - including light to dark neutrals and muted accents. And with 11 colors available in coordinating norament stairtreads, both designs can be carried onto a high-performance surface for your stairs.

# norament 825 round

norament round tiles are monochrome with a classic round pastille surface for use in heavy traffic areas. Choose from a range of warm and cool neutrals or light to dark muted accent colors.

**norament 825 round**  
**Art. 1902**  14  
 □ 501 mm x 501 mm (~19.72 in x 19.72 in)

## Why nora® rubber flooring?

### Product Benefits

#### Reduced Maintenance

Little more than water needed - no finishes, coatings or harsh chemicals necessary.

#### Quiet Acoustical Performance

Attenuate noise pollution.

#### Ergonomic Design

Add comfort underfoot, reducing foot and leg pain.

#### Durable Surface

Withstand extreme stress from heavy rolling loads and wheeled traffic.

#### Superior Slip Resistance

Help to create safer spaces.

#### Supports Infection Control

Disinfect thoroughly due to a dense, non-porous surface.

### Sustainability Verifications

#### Carbon Neutral Floors™

Third party verified carbon neutral throughout its entire life cycle as part of Interface's Carbon Neutral Floors program. Learn more at [interface.com/carbonneutral](https://interface.com/carbonneutral).

#### Cradle to Cradle Certified® Silver

Certification of whether a product is safe, circular and responsibly made. Applies to nora 926 and 913 compound floor coverings and stair treads.

#### GREENGUARD Gold

All nora floor coverings & adhesives are certified for low VOC emissions.

#### Environmental Product Declaration (EPD)

A statement of product ingredients and environmental impacts over the entire life cycle of a product. A comprehensive life cycle assessment (LCA) is performed to ISO standards to develop an EPD, after which both the EPD and LCA must be third party verified. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD and acoustic floor coverings.

#### Health Product Declaration (HPD)

A transparency tool for evaluating whether a product supports Green Chemistry. As part of our work on Health and Materials, Interface continuously reduces the environmental and health impacts of our products through elimination of materials of concern. Applies to nora 926 and 913 compound floor coverings and stair treads, and ESD floor coverings.

### Integrated System

nora and Interface cover every area of your building – all from a single source. Create harmonious, space-specific design with our system of soft and resilient floor coverings, including special floorings, stair treads and accessories.

### Outstanding Service

From design to post-installation, we have the experts to support your project at every step and can even be a valued resource for your organization's sustainability mission.
