# Milford High School

Highland, MI

“The nora flooring has delivered on everything we were promised.”

Kevin McKenna, Principal,  
Milford High School

**Milford High School** welcomes 1,250 students daily, greeting them with norament® grano premium rubber flooring. The new floor replaced cracked, aging linoleum tiles, giving the sixty-year-old school a much-needed facelift and easing the workload of custodians.

After testing the floor covering’s durability in office areas, administrators decided to install the floor down the school’s lengthy front corridor, in attendance and health offices and through staff lounge and copy areas. That decision hasn’t disappointed them. Principal Kevin McKenna cites maintenance savings, durability and the acoustic benefits the floor delivers—everything nora® promised them.

Maintenance Foreman Kevin Kiefer agrees. “The nora floor is a real success story. It is doing everything we hoped it would—reducing costs, cutting staff time and creating a better environment with an updated look that doesn’t feel institutional.”
