# The simple, smart flooring solution

In offices, public buildings and universities you need huge amounts of floor covering and you need it to function perfectly.

noraplan<sup>®</sup> convia is a smart solution for these kinds of spaces, as it gives you the proven properties of nora floor coverings at extremely good value for money.

# Floor coverings that make everything simpler

*The smart solution  
for large spaces*

Big buildings mean large floorspace. Using the same floor covering for a substantial proportion of your property saves you time and money during installation. noraplan convia's large palette gives you the option of using the same floor covering in different shades for smart, colourful designs.

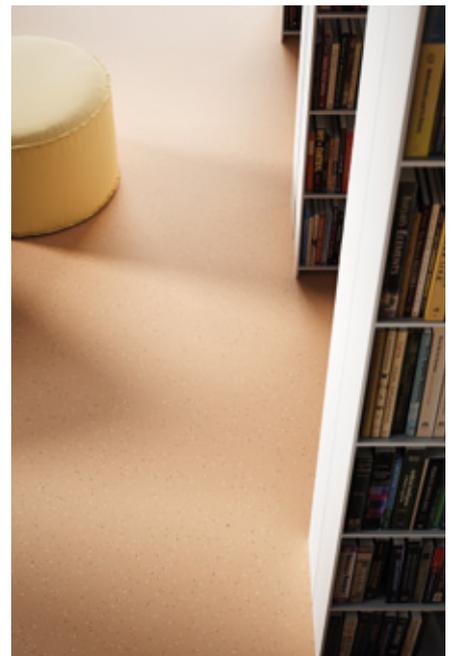

## The smart solution for your budget

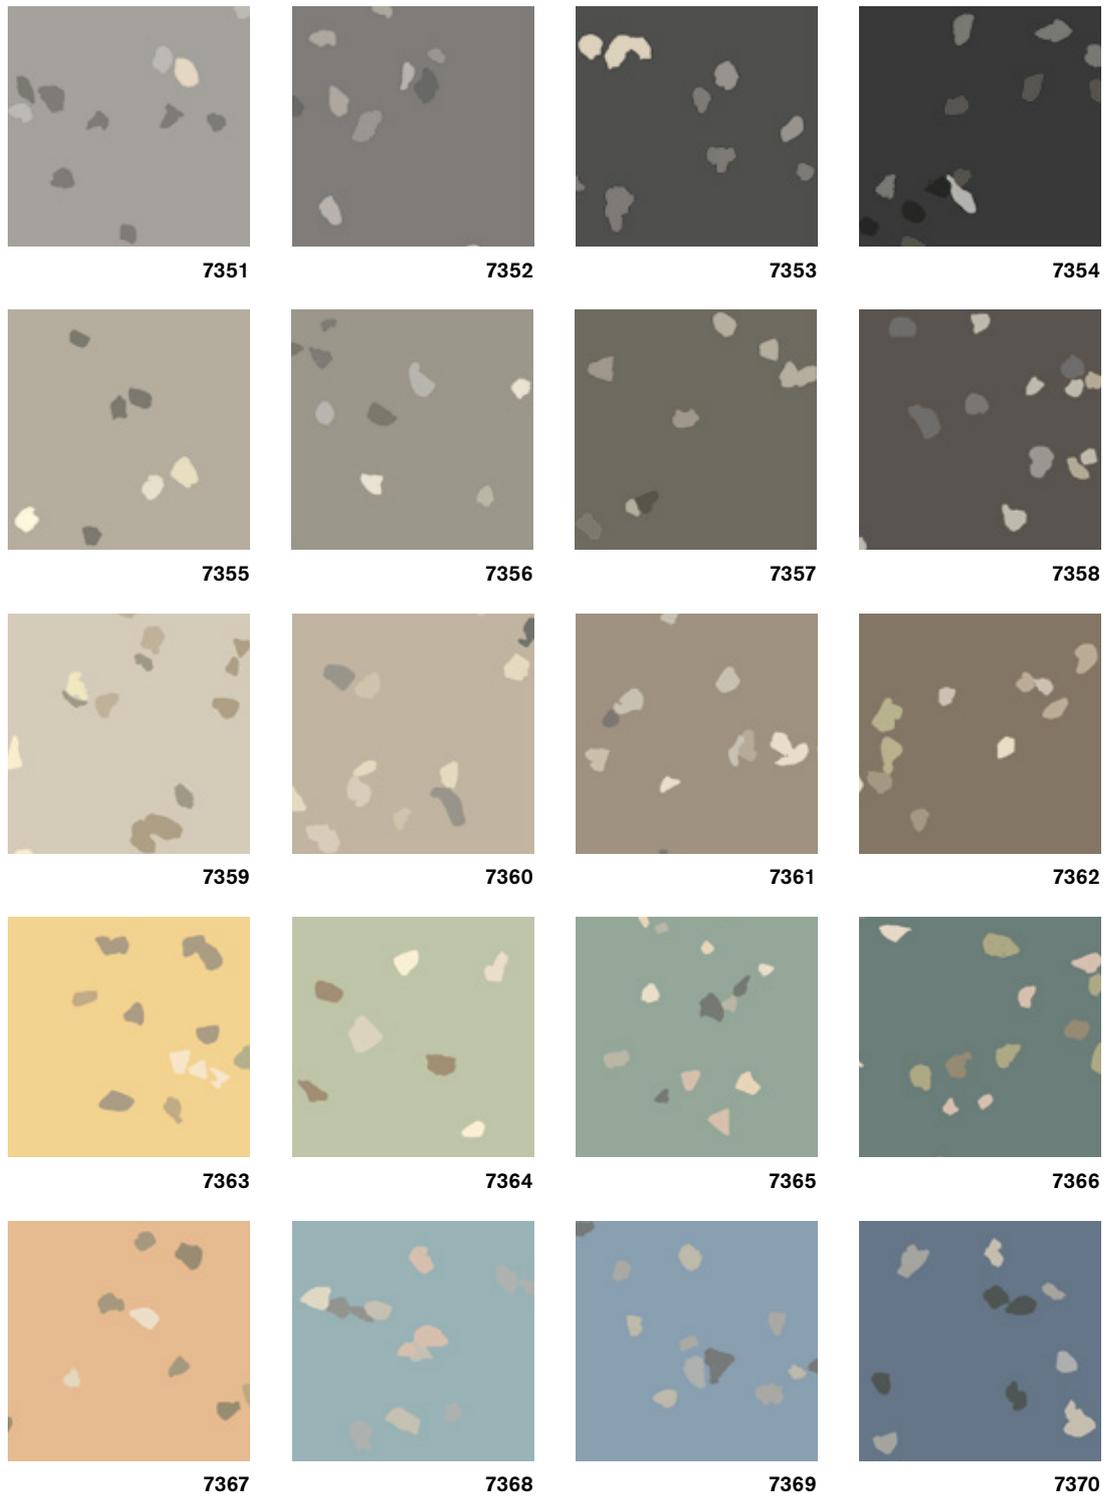

noraplan convia's excellent value for money gives you the freedom to install high-quality, genuine rubber flooring throughout your entire building. The fact that the flooring is CO<sub>2</sub>-neutral\* throughout its entire product life cycle makes it ideal for certification according to sustainability standards such as LEED and BREEAM.

## The smart solution for functionality

Like all nora floor coverings, noraplan convia also offers many other advantages. It is robust and ergonomic, contains no PVC or phthalate plasticisers, and is slip-resistant. It also performs well in terms of long-term maintenance and is easy to keep in a hygienic state over many decades.

\*nora® floor coverings are CO<sub>2</sub> neutral over the entire product life cycle. We are continuously working on further reducing CO<sub>2</sub> emissions within the value chain through various measures. Remaining CO<sub>2</sub> emissions are offset by the acquisition of certificates relating to audited emission reduction projects.

**Article 170F for sheets**

 ~1.22m × 15.0m

**Article 270F for tiles**

 ~610mm × 610mm

15 = 5.58 m<sup>2</sup> in one carton

 ~2.0 mm

nora profile connection dimension: A + U

Also available as noraplan convia nTx.

Note: Further designs and information on nora nTx are available at [www.nora.com/ntx](http://www.nora.com/ntx) or on request.

# Colours for everyone and everywhere

The noraplan convia colour palette has something for everyone. The base colours can be used anywhere and these shades have enjoyed great popularity in recent years. Five different granules bring the floorings to life and add visual depth.

The neutral colours and lively accent colours combine to create a tasteful aesthetic. You can use the strong tones and characteristic interspersed granules to emphasise specific sections and include inlays to improve orientation for visitors.
