

nora[®] pads

FOUR CLEANING PADS.
SOME WATER.
THAT IS THE NORA SYSTEM.

nora[®]

The cleaning system for economically and ecologically preserving the value of nora® rubber floor coverings.

nora® pads are floor cleaning disks that are impregnated with countless, microscopically small diamonds. The flooring is mechanically cleaned and polished – just with water and absolutely no chemicals at all. nora® pads are suitable for day-to-day care as well as for repairing extremely soiled or damaged floorings. They can be used with most standard types of machine and are available in different sizes. nora® pads were exclusively developed for nora® rubber floor coverings.

Apply Water

Clean the flooring with nora® pads

A clean result

The unique advantages of nora® pads and how you benefit from them:

nora® pads only require water to clean the flooring: no chemicals, wax or polish.

nora® pads have been developed specifically for cleaning, finishing, and renovating nora® floorings.

Ecological and economic cleaning; the usual day-to-day cleaning procedure stays the same.

Preservation or enhancement of your investment throughout its entire life cycle.

No more costs for cleaning products.

nora® pads are a consistent continuation of the nora system blue® philosophy, an economical and ecological solution for safeguarding the value of nora® premium rubber floorings.

**Four different pads.
Four different applications.**

Pad 0 is used for daily maintenance cleaning and polishing of structured noraplan® floor coverings as well as noraplan® uni, noraplan® unita and noraplan® ultra grip.

Pad 1 is used for daily maintenance cleaning of smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure. Coverings which have already been cleaned or freshly-laid coverings can also be finished in a single operation.

Pad 2 is suitable for scheduled or intensive intermediate cleaning of smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure and thus creates the basis for the daily usage of Pad 1.

Pad 3 removes coarse dirt as well as scratches on smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure and is ideal during restoration work; in particular where satisfactory results can no longer be achieved using conventional cleaning measures.

nora® pads can only be used for nora® floor coverings. They are not suitable for other flexible or laminated coverings.

Please see our website www.nora.com for more details on using nora® pads.

Fully equipped for any job: nora® pads in 4 strengths and 6 different sizes

Cleaning. From daily care to intensive cleaning

Finishing. Clean coverings first and then polish to a high gloss

Refurbishment. Removing the most stubborn dirt and scratches

nora® pads – the perfect complement to nora system blue®.

As an additional item, nora® pads are the perfect complement to nora system blue®.

This coordinated overall system is sustainability-oriented and certified and combines nora® rubber floor coverings with selected installation materials, both low emissions. The coordinated system construction is subjected to the most stringent emission tests and both the selected nora® floor coverings and nora system blue® installation materials have been awarded the „Blue Angel“ eco-label (RAL-UZ 120 and 113).

Our nora pads® complete this all-in-one system range with an environmentally-friendly and sustainable cleaning and care solution.

The system design:

1 primer 2 filler 3 adhesive 4 floor covering
