

# nora<sup>®</sup> pads

FOUR CLEANING PADS.  
SOME WATER.  
THAT IS THE NORA SYSTEM.

**nora**<sup>®</sup>  
by **Interface**<sup>®</sup>

## The cleaning system for economically and ecologically preserving the value of nora® rubber floor coverings.

nora® pads are floor cleaning disks that are impregnated with countless, microscopically small diamonds. The flooring is mechanically cleaned and polished – just with water and absolutely no chemicals at all. nora® pads are suitable for day-to-day care as well as for repairing extremely soiled or damaged floorings. They can be used with most standard types of machine and are available in different sizes. nora® pads were exclusively developed for nora® rubber floor coverings.

Apply Water

Clean the flooring with nora® pads

A clean result

### The unique advantages of nora® pads and how you benefit from them:

nora® pads only require water to clean the flooring: no chemicals, wax or polish.

nora® pads have been developed specifically for cleaning, finishing, and renovating nora® floorings.

Ecological and economic cleaning; the usual day-to-day cleaning procedure stays the same.

Preservation or enhancement of your investment throughout its entire life cycle.

No more costs for cleaning products.

nora® pads are a consistent continuation of the nora one® philosophy, an economical and ecological solution for safeguarding the value of nora® premium rubber floorings.

**Four different pads.  
Four different applications.**

**Pad 0** is used for daily maintenance cleaning and polishing of structured noraplan® floor coverings as well as noraplan® uni, noraplan® unita and noraplan® ultra grip.

**Pad 1** is used for daily maintenance cleaning of smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure. Coverings which have already been cleaned or freshly-laid coverings can also be finished in a single operation.

**Pad 2** is suitable for scheduled or intensive intermediate cleaning of smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure and thus creates the basis for the daily usage of Pad 1.

**Pad 3** removes coarse dirt as well as scratches on smooth noraplan® floor coverings as well as norament® floor coverings with hammerblow or cubic structure and is ideal during restoration work; in particular where satisfactory results can no longer be achieved using conventional cleaning measures.

nora® pads can only be used for nora® floor coverings. They are not suitable for other resilient or laminated coverings.

Please see our website [www.nora.com](http://www.nora.com) for more details on using nora® pads.

Fully equipped for any job: nora® pads in 4 strengths and 6 different sizes

**Cleaning.** From daily care to intensive cleaning

**Finishing.** Clean coverings first and then polish to a high gloss

**Refurbishment.** Removing the most stubborn dirt and scratches

## nora® pads – the perfect complement to nora one®.

nora® pads are the perfect complement to nora one®.

The combination of low-emission nora floor coverings with suitable floor installation products and flooring installers specially trained by nora form a certified complete system: nora one®.

This low-emission complete system is certified in line with Indoor Air Comfort GOLD. This eliminates harmful interactions between the separate elements. The individual components have also been awarded the Greenguard Gold certificate.

Our nora® pads complete this all-in-one system range with an environmentally-friendly and sustainable cleaning and care solution.

### The system design:

The nora one® system – **1** Primer **2** Leveling compound **3** Adhesive **4** nora® rubber floor covering
