noraplan® unita

A PIECE OF INFINITY
noraplan unita – Opposites attract

When soft rubber and solid granite unite, something astonishing is made. Real granite chips embedded in a high-quality rubber floor covering create fascinating visual depth. This fusion of opposites results in a timeless and extremely appealing design that will give your project a distinctive character. Unique like the stars in the night sky.
noraplan unita combines rubber and granite to create a successful symbiosis.

Urban look

noraplan unita is the perfect partner for contemporary interior design. Its puristic ambience enhances the perception of space and emphasises the dramaturgy of urban architecture.
Timeless design

The more minimalist a design, the longer it can defy fashions and trends. The elegant look of noraplan unita is reduced to the essentials: a perfect example of accomplished, timeless understatement.
Cool elegance for your interiors

noraplan unita lays infinity at your feet. The authentic design is a perfect match for your modern architectural project, from co-working spaces to museums and from universities to canteens. The elegant range of colours helps you to enhance prestigious interiors with an exclusive atmosphere.
Tough beauty

This rubber floor covering is a perfect combination of permanently resilient rubber and randomly dispersed granite chips. It delivers outstanding benefits:

- Ergonomic comfort when walking and standing
- Extremely low emissions contribute to healthy indoor air
- PVC-free and free of phthalates
- Resilient and durable
- Contributes to pleasant interior acoustics
- Jointless installation for a uniform surface appearance
- No coatings needed

The fine scatter of chips in noraplan unita lends it a discreet appearance. The design is deliberately purist and simple. This makes it ideal for combining with many other original materials, such as leather, wood, fabrics and metal.
